Subject: Re: Ciba/Herff Jones Revised ELUR

Tim and others,

EPA has reviewed the changes to the ELUR attached to this e-mail and approves it for filing at the time of property transfer. When this document is filed in the Records of Land Evidence for Warwick, Rhode Island, a hard copy of the ELUR depicting the recording stamps should be submitted to **my attention** at the following address:

EPA
1 Congress Street
Suite 1100 (HBT)
Boston, MA 02114.

Future amendments to this document to comply with RIDEM requirements should also be submitted to **my attention**.

Frank Battaglia, EPA Project Manager

Subject: Ciba/Herff Jones Revised ELUR

<<Revised ELUR.doc>>

Attached is a revised version of the ELUR. I spoke with both Margaret and Frank regarding the regulatory comments and I have attempted to re-draft the ELUR so as to allow its filing at the closing (addressing EPA's concerns) but allowing for the activities described in the RAWP to proceed without triggering additional RIDEM notifications.

I also eliminated the need for the Soil Management Plan to be an Exhibit of the ELUR. It will now be included as a separate Appendix of the revised RAWP which we are currently working on to address Margaret's comments. We hope to have a revised RAWP to RIDEM by the end of the week.

SEMS DocID 638016

I edited the ELUR by accepting all changes from the version previously submitted to RIDEM and then tracking only these new changes.

Please review the ELUR ASAP and let me know if it meets everyone's needs.
Tim
